Gender Equality and Non-Discrimination Policy of the Supreme Court of Chile

Approved in February 2028. The Policy is a framework that outlines the necessary actions to incorporate a gender and human rights perspective into all aspects of the Judiciary's work. This means that the institution's services, in all areas, phases, and levels, must take into account the different situations that people experience and the different roles they play, regardless of their sex, age, or other status, in order to identify and address gaps and ensure that their actions do not perpetuate existing inequalities and discrimination that hinder effective access to justice.

The Policy's **purpose** is to promote gender equality and non-discrimination in all aspects of the Judiciary's work, including the care of users and the exercise of jurisdictional functions. This will help to guarantee effective access to justice for all people, regardless of their gender, and to establish egalitarian relations within the Judiciary.

The Policy establishes two **areas of action**:

- Internal scope: This includes all actions that promote egalitarian work environments free of violence and discrimination within the Judiciary.
- External sphere: This refers to the development of policies and actions aimed at guaranteeing equality and non-discrimination for all people in access to justice.

The Policy is based on five **guiding principles**: Gender Equality; Non-gender discrimination; Gender approach in access to justice; Non-gender violence; Participation and inclusion.

The Policy is structured on the basis of **four strategic axes**:

1. **Non-gender discrimination:** This axis aims to eliminate discrimination against women and men in all aspects of the Judiciary's work.
2. **Gender approach in access to justice:** This axis aims to ensure that the Judiciary takes into account the different experiences of women and men when providing access to justice.
3. **No gender violence:** This axis aims to prevent and eradicate gender-based violence in all aspects of the Judiciary's work.
4. **Training:** This axis aims to ensure that all members of the Judiciary are trained in gender equality and non-discrimination.
